Dear Sir:

I beg to acknowledge receipt of your letter of the
2nd enclosing cheque for your annual dues. Thank you very much.

Thank you also for your proposal for membership
of the Hon. John W. Garrett, American Minister to the Hague.
At a meeting of the Council yesterday, his name was presented,
and he was unanimously elected. Please assure Mr. Garrett that
that we shall be very glad to welcome him at our Museum whenever
he may be in New York.. I trust we may have the pleasure of
greeting you here too should opportunity serve you when you are
in this city.

Very respectfully yours,

Dear Sir:

I have the honor to inform you that at ^{yesterday's} ~~the last~~ meeting of the Council you were unanimously elected an Associate of The American Numismatic Society, upon the nomination of Sydney P. Noe.

It gave us great pleasure to receive Dr. Jacobs' proposal of your name for membership, and if when you have an opportunity for visiting our Museum you will make yourself known, I should be very glad to show any of our material not on exhibition which might be of interest to you.

Very respectfully yours,

Sir:

I have received your letter of January sixth, informing me of my election as an Associate of The Numismatic Society, upon your nomination.

I am very much pleased to receive this information, and I shall avail myself of the first opportunity to visit the Museum.

Very sincerely yours,

My dear Mr Garrett:-

Mr Wood and I have
been trying to get away this week, but
find it impossible. Next week, if
you are still in Princeton, we could
spend Tuesday there, or Friday.
We will hold these dates - 27th and 30th
until we hear from you. I hope
we can get together and be of use
to you.

Very sincerely -

I am very much obliged to you for your letter of February 13th and for the trouble you have taken to get me the copies of the Journal and some of the proceedings that I need. I was at Princeton yesterday and they had not yet arrived there. If they have not been sent, I suggest that you hold them and I will call for them at the earliest possible opportunity. I am obliged to be out of town for three or four days but I may be able to come up to the Museum on Saturday next.

May 24th, 1920.

Dear Mr. Wood;

While I was Minister to The
Argentina, I took considerable interest -
among other things - in the schools, one
result of which was that I was presented,
I think by the Minister for Education, with
a number of medals commemorating the found-
ing of various schools in the nation. I
have had them packed away for several years
and came across them the other day, and I
wondered whether they would be acceptable
to the Society. I shall send them to you
by express in the hope that you will care to
have them.

[on a piece of tracing paper,
folded down center]

I suppose you are anticipating with a good deal of eagerness the Miller sale. I am sorry that I am not collecting Roman coins, for I should like to get some of the wonderful things that are being disposed of by Mr. Elder. There are a few Colonial pieces that I am putting in bids on, but there are not many that I really want for my collection.

I hope to be in New York next month and have the pleasure of seeing you again.

Dear Sir:-

At a recent meeting of the Council of The American Numismatic Society, it was decided to publish the proceedings and reports of our meetings in brochure form in the series of Numismatic Notes and Monographs, beginning January 1921.

Under an arrangement with the publishers of The Numismatist, this periodical has been sent to you heretofore at our expense in order that information regarding meetings of our Society might reach you. The cost of doing this has come from our general funds which are limited. Recently, there has come the opportunity for publishing our proceedings in the new form. As they will be sent to all our members, there is not the same need for continuing our arrangements with the Numismatist, and after January 1921 you will no longer receive copies of this magazine by reason of your membership in our Society.

Our relations with the editors and publishers of the Numismatist continue to be of the friendliest. If you have found in the Numismatist interesting and valuable reading matter, we trust that you will respond favorably to the accompanying invitation of the editor of this magazine by becoming a regular subscriber.

Very respectfully yours,

My dear Mr. Garrett:

We were successful in getting most of the Indian Peace Medals which we wanted in Mr. Chapman's recent sale. We got the two we most desired, namely, the American Fur Company medal with the head of John Jacob Astor on it, and the large size Jefferson medal as well as several of the minor Colonial ones. These cost us \$688.00. We would have gotten more if we had felt that we had more money to spend.

We would appreciate it very much if you could send us a cheque by the first of the year. I think ~~Mr.~~ Reilly told me that you had said you would subscribe Fifty Dollars; I want to thank you most sincerely for this.

I understand that you are now much interested in Greek coins. As you may know, we have some very fine ones here, and Mr. Sewell has one of the finest collections in the world. He would be very pleased to show you his pieces if at any time you would let us know when you could come up so that I could arrange a time which would also be convenient to Mr. Sewell.

THE AMERICAN RED CROSS MEDAL.

Designed by DANIEL C. FRENCH

AMERICAN RED CROSS

THE AMERICAN NUMISMATIC SOCIETY

THE WAR COUNCIL MEDAL

New York, January 15th, 1921

The American Red Cross on the occasion of its annual meeting of the present year presented to each member of its War Council a memorial medal in recognition of their exceptional services during the war. This medal has been designed by Daniel C. French and executed under his direction.

The twelve medals given to the members of the War Council were struck in gold. Each bears on its rim the name of its recipient. Each is, therefore, unique and is intended so to be. In addition four copies in silver have been issued.

The interest in this medal is so great and its beauty so exceptional that the committee in charge, with the approval of the National Society, have determined to give to Chapters and members of the Red Cross as well as to art museums and lovers of art the opportunity of securing a limited number of replicas in bronze. The half tone reproduction on the preceding page will give an idea of the beauty and dignity of Mr. French's achievement. On the obverse, in high relief, is represented the symbolic head of an American soldier. Mr. French's initials, D C. F., will be found inconspicuously beneath the neck of the figure. On the reverse is a Red Cross nurse standing erect over a prostrate wounded soldier. The two figures are posed in the form of a cross and are appropriately enclosed in the typical form of an American Red Cross. On the reverse is the following inscription: AMERICAN RED CROSS. TO COMMEMORATE THE VISION AND ACHIEVEMENT OF ITS WAR COUNCIL. The diameter of the medal is $2\frac{3}{4}$ inches.

The subscription price of the bronze medal has been fixed at \$6.00, an amount deemed sufficient substantially to cover cost of the materials and distribution. All the medals will be numbered. The allotment and numbering of the medals will be made in the order of receipt of subscriptions. The lists will close at noon on March 15 1921, after which date no more subscriptions will be accepted. Subscriptions must be accompanied by check to the order of the American Numismatic Society and instructions for delivery should be sent, *not* to the Red Cross or the Red Cross Committee, but to THE AMERICAN NUMISMATIC SOCIETY, 156TH ST. and BROADWAY, NEW YORK, who have kindly consented to make this distribution.

Dear Mr. Garrett:-

I understand that you have one of the large oval Indian peace medals of Washington which is different from any in this Society's collection.

We would greatly appreciate it if you would be willing to place this on loan here for awhile thereby giving us the opportunity of studying it and comparing it with those that we have.

My impression is that your medal is of a little later type than the large one we have, and probably by a different engraver.

While each individual medal of this series was engraved by hand and consequently will vary in some particulars from others, there are, as far as I can make out four distinct varieties of which we have three and yours is the fourth.

The first variety bears one date only - 1789. The second and third each have two dates - 1792 and 1793. The difference being large and small size, and the fourth variety has the dates 1793 and 1795.

Hoping you will consider this favorably, and with kind regards, I am,

Dear Mr. Garrett:-

I had the pleasure of looking at your Washington medal a few days ago, and it confirms my opinion that these oval Washington medals are by three different engravers, showing three styles of work.

The one of 1789, of which we have the only specimen that I have seen or heard of, is very crude and quite different from the others.

Then came the two sizes of 1792 and 1793 all of which are quite similar and evidently by the same hand. We have the large one of 1793 and the small one of 1792.

Lastly those of 1793 and 1795, with the initials J. R. (Joseph Richardson of Philadelphia), and which differ in several ways from the others.

I am very glad to have the chance of comparing your medal of 1795 with those in the Society's collection, and hope that you will not be in a hurry to take your medal away as it is of great interest and advantage to have the different varieties where they can all be seen and studied at the same time.

There is an other interesting oval engraved medal for the Treaty of Greenville in 1795, of which a specimen is in the Pennsylvania Historical Society. This is inscribed with the name and date of the treaty and bears an American Eagle - both sides the same.

Thanking you very much for loaning us the medal,
I am,

Very sincerely yours,

My dear Dr. de Yoanna

Since I have returned
to the city I have had more
opportunity to study the
photograph of the beautiful
aureus you purchased a little
while ago. I am now
convinced that it was struck
by Caracalla - not by
Elagabalus. The portrait is

exactly that of Caracalla
before he commenced to raise
a beard. The number of
the Trilunian Power is that
of Caracalla - but not of
Elagabalus.

The reverse design is
certainly that of Dionysus in
a quadriga of leopards. This
is shown by the fact that
the god holds a Thyrsus in

his left hand and a wine cup
(Cantharus) in his right hand.

These are attributes only of
Dionysus or Bacchus. The
animals are certainly spotted
leopards and not lions, which
is again only suitable for
Bacchus.

Your coin is indeed a
gem, and you are to
be congratulated in having

secured such a numismatic
prize !

With best wishes and hoping
you are daily adding fine
pieces to your splendid collection

Sincerely

New York City.

Dear Sir:

Your letter of October 18th is received. I beg to say that my brother, John W. Garrett, owns the collection of coins you have in mind and is much more familiar with it than I am. I shall therefore turn your letter over to him for his attention. Just now he is out of the city and is not likely to be here much in the immediate future, but I hope he may find it possible to give the necessary time to reply to your inquiry.

Yours very truly,

THE CHOATE MEDAL

ISSUED BY
THE CENTURY ASSOCIATION AND THE
AMERICAN NUMISMATIC SOCIETY

HERBERT ADAMS, SCULPTOR

THE JOSEPH HODGES CHOATE MEMORIAL MEDAL

NUMBER ONE OF A SERIES OF MEDALS COMMEMORATIVE
OF MEN DISTINGUISHED FOR PUBLIC SERVICE

The Century Association, having decided to issue a series of commemorative medals in honor of men who have been especially distinguished for public service, in the arts, in letters and in other notable activities, has appointed a committee with power to act. It is in pursuance of this determination that the first of the proposed medals is now to be issued.

In 1919 an exhibition of medals was held in the gallery of the Century Association where it attracted a great deal of attention to this field of sculpture. For this exhibition The American Numismatic Society loaned a considerable number of plaques and medals from its collection. This exhibition constituted a strong argument in support of the idea that a series of Century Association medals should be undertaken, and that these medals be made available to the members through subscriptions.

It is especially fitting that the first medal of the series should commemorate the public services of so great an American as Joseph Hodges Choate. His singular ability in many fields, his charming personality, and the very great measure of accomplishment which rewarded his efforts, mark him as one of the most gifted men that America has produced. "Patriot, Ambassador, Jurist, Orator," the medal rightly proclaims him.

The design of the medal was entrusted to Mr. Herbert Adams, one of our most distinguished sculptors, President of the National Academy of Design, 1917 to 1919, member of the Commission of Fine Arts and a personal friend of Mr. Choate. Mr. Adams' work for the Library of Congress in Washington, St. Bartholomew's Church in New York, the Bryant Statue in Bryant Park, and many statues and memorials throughout the country testify to his eminence as a sculptor. The medal which he has designed is a work of remarkable artistic quality and a very beautiful presentation of the personality of Mr. Choate.

The Committee of the Century Association desires to extend the privilege of subscribing for this medal to other societies of which Mr. Choate was an honored member. Invitations to subscribe were extended to and accepted by the Bar Association, and the Harvard Club, and the privilege of subscribing will be further extended to a limited list of collectors, amateurs and friends of Mr. Choate.

The Committee of the Century Association has been glad to avail itself of the kind cooperation of The American Numismatic Society in publishing the medal and takes this opportunity to express its cordial appreciation of its helpfulness, and has authorized The American Numismatic Society to issue this circular and to accept subscriptions for the medals.

CASS GILBERT, *Chairman* HENRY DE FOREST BALDWIN,
GEORGE F. KUNZ, AUGUSTUS TACK,
EDWIN H. BLASHFIELD,

Committee on Medals of the Century Association.

The Committee on the Publication of Medals of The American Numismatic Society has accepted the invitation of the Century Association to cooperate in publication of the Choate Medal, and has much pleasure in inviting subscriptions for the medal from its members, from the members of the Century Association, from the Bar Association, the Harvard Club, and from a limited list of collectors, amateurs and friends of Mr. Choate.

The medal is an unusually beautiful example of medallic art and will be much prized by its possessors on account of its historical importance, its subject, and its very exceptional artistic merit.

Copies of the medal will be issued in silver and bronze. The price of the medal in SILVER is \$10.00, and that of the BRONZE medal, \$5.00.

Subscriptions stating the number desired in each metal, accompanied by checks to the order of The American Numismatic Society, should be addressed to The American Numismatic Society, Broadway and 156th Street, New York City.

Dear Sirs:-

I enclose my check to your
order for \$3.75 and shall be much obliged
if you will send me a copy of the descrip-
tive catalog of Greek coins selected from
the collection of Mr. Clarence S. Bement
by T. L. Comperette.

Very truly yours,

DEKADRACHM OF SYRACUSE
Issued for the Assinarian Games

Descriptive Catalogue of Greek Coins Selected from the Collection of Mr. Clarence S. Bement, of Philadelphia

By T. L. COMPARETTE, Curator of the Numismatic Collection,
the Mint at Philadelphia. 4to, (about) 100 pages and 25 plates.
Price, \$3.75 (*actual cost*). ~~In press and ready soon.~~

This catalogue embraces 370 of the rarer and more interesting coins in Mr. Bement's splendid collection. It is not a mere catalogue that would be of service only to the expert, but has been compiled with copious notes relating to the cities and states that issued the coins, also to art and artists, literature, history, commerce, finance, and religious matters, that will help the layman to understand the types and the significance of the weights and other facts about ancient coins. The specimens described represent almost the entire Greek world and extend from the early sixth down to the first century B. C. All of the coins are illustrated.

The edition will be small and orders for copies will be entered in the order received until the edition is exhausted.

Aes Signatum

By the same Author. 4to, 61 pages and 6 plates. Price, \$1.25. 1919.

A searching study of the great bars that many scholars have accepted as specimens of the first coins issued by the Romans, the *aes signatum* mentioned by Pliny. Former theories are stated and refuted, and a new explanation of the bars advanced, supported by exhaustive discussions of the types of six bars. Only a few copies left.

"Debasement" of the Silver Coinage Under the Emperor Nero

By the same Author. 4to, 13 pages. Price, \$0.35.

The introduction of a sound financial principle into the Roman monetary system. Very few copies left.

*The last two works are separate prints from
the American Journal of Numismatics.*

Orders may be sent to MR. CLARENCE S. BEMENT, 3907 Spruce Street, Philadelphia, Pa., or to THE AMERICAN NUMISMATIC SOCIETY, 156th Street, near Broadway, New York City.

Dear Mr. Wood:-

My brother has recently given me a letter you wrote him on the 18th of October asking whether a gold dollar of 1858 in my collection was of the rare type with larger lettering on the obverse and reverse. I regret to say that the only 1858 gold dollar I have is of the common or ordinary variety.

I do not know when I shall be in New York again and I am wondering perhaps when you get through with your very kind identification of the Mohammadan coins I left with you, if you will be good enough to send them to me here in Baltimore.

BAMBOO MONEY

In a letter to John Robinson, Salem, Mass., dated Aug. 11, 1912, Henry Ramsden mentions the "bamboo talley money". "Their having values written on them, as well as the names of the issuers and other legends similar to regular coinage, gives them an interest which the ordinary bamboo tallies, used for counting or checking purposes, have not got".

"I find very little has ever been said about them".

Under date of Jan. 8th, 1912, he says of a piece submitted, "this was perhaps more of a talley than actual money, as may perhaps turn out to be the case with all these bamboo pieces, although perhaps, like many other counters and tokens, may at some time or other passed as currency".

In an advertisement in the Numismatic and Philatelic Journal of Japan, for April 1913, Henry Ramsden states that the bamboo money "is supposed to have been derived from metal checks said to have been current in the city of Tsi-an-fu, the capital of Shantung, as far back as A. D. 1275..... These bamboo pieces are now found in

10/17/22

Bamboo Money

nearly all parts of China, although they appear to be most popular on the Yangtse and conterminous regions.

Their field of circulation was, as a rule, purely local, although no few extended over the limits to which they were first intended.....".

Obv. - Over the head, "T'ang, Governor General
(of the) Military Government."

Rev. - "Gold Coin Commemorating the Defence of the
Republic" and, below the stars, "Equivalent
to Five Silver Dollars". The flange are those
of the Republic.

Mr A. M. Tracy Woodward has given the date
of this issue in the New China Review for
June 1921. T'ang also produced two types
of silver half dollars, a bronze fifty cash and
a ten dollar gold piece.

Your next rubbing shows Dr. Sun Yat-sen

Dear Sir:

The Society's collection of decorations and war medals has so greatly increased during the past two years that the swing-cases for exhibiting it prove entirely inadequate. Unfortunately, one-third of the collection is not on view owing to this lack of space.

The swing-cases are hung on two sides of each of the four columns in the exhibition room, and it has been found practicable, by providing larger bases, to hang five cases instead of the present three to the columns, thereby increasing our exhibition space by two-thirds.

The additional sixteen cases will provide adequate space for this valuable collection, which is probably the largest and most important in existence. The Society feels that it owes to the memory of the late Mr. J. Sanford Saltus, its friend and benefactor, proper provision for the display of the collection in which he took such great interest and to which he contributed the largest part of its treasures.

These new cases, together with the larger bases, will cost approximately \$1,000. Two of the Society's members have already contributed \$100. each. It would be greatly appreciated if you could see your way clear to assist in the matter of raising the necessary amount for this purpose.

Trusting you will lend your support, and that we may receive a cheque from you made out to the order of The American Numismatic Society, I am,

Very truly yours,

Edward Newell

Mr. Howland Wood, Curator,

Dear Mr. Wood:-

I think I should like to have the British Museum catalog on Persian coins which you mention in your letter of December 16th if it does not cost very much.

I have been going over the Mohammedan coins and find there are lots of "holes" in my collection, which I hope you may be able perhaps to help me fill up.

In regard to the card which I return herewith, I might add that my collection, or rather the collection made by my father and to which my brother and I have added, consists of a pretty complete series of our Colonial and Continental coins, including a number of great rarity; a very complete series of American Mint issues; nearly 400 Patterns of the Philadelphia Mint; a good series of Hard-time Tokens; "Confederate" pieces; and hundreds of medals, including some of the rare Presidential ones. I am not adding to the above series at present. Something over one-half of the California and other private issues are also represented in the collection, ~~half~~ ^{some} of the pieces there being unique so far as I know.

I have not yet begun really to specialize, although I think I am tending that way. Aside from the Greek series which interest me at present, most of all, I have been, as you know, interested in the Mohammedan coins and in European issues before 1500. I have also a pretty good series of Byzantine gold and a number of Imperial Roman Aurei. There is also a number of Confederate, Broken-bank and Fractional notes, but I have not yet even checked them up.

If you want more details I shall be only too glad to give them to you. Again with best Compliments of the Season,

Sincerely yours,

I am sending you today three coins.
One of them I have just received from Schulman, who
classified it as a Guadeloupe piece. You will see that
it has a number of countermarks on it and I am sure
you will be able to tell me what they all mean. I
shall be very grateful if you will. The other two
pieces are Chinese Sycee and have also been sent me
by Schulman. I wonder if Riley could compare these
with the pieces Schulman recently sent him. As I
remember the latter these do not seem to be as good.
Riley was going to let me know if he did not want any of
the ones Schulman had sent him, so that I might pick out
one or two of them for my own collection. Schulman
asks 25 and 15 florins for the two pieces he has sent
me. I should like to know how they compare with the
other lot if it is not asking too much of Riley and
yourself.

Sincerely yours,

JWG/S

John W. Garrett, Esq.

Dear Mr. Garrett:

Please pardon the delay in replying to your letter of January 9th, but for the past few days I have been absolutely occupied with our Annual Meeting.

Your gold coin is a nice piece; and if you can get it at all reasonably, I would advise you to take it, because these are fast disappearing and are now becoming exceedingly rare. Unfortunately, I cannot assign it to any one locality. I should say that it was used on one of the French, rather than on one of the English, islands, as the English system of weights was different, and nearly all of the pieces used on their island had gold plugs inserted to bring up the weight to their standard. This piece was probably used at Gallin-loupe although I have no means of identifying it.

From my study of these pieces, I have come to the conclusion that many of the marks impressed upon them, are the private marks or initials of the people appointed by the Island Governments to examine and test the gold coins in use on those islands.

This identical piece is Lot 1211 in the Dr. Jules Weill Collection, sold by Schulman, May 23rd, 1910. In the description of this lot, he writes: G.L. for Gadeloupe; B. for Bermuda; M. for Martinique, and L. for Les Saintes, but personally I do not consider these marks as locality marks, but endorsement marks.

The two Chinese pieces are as good as similar pieces sent to Weill, though the inscriptions are a little different. Of the larger size, there were several weighing about the same and looking like this which varied from 16 to 22 florins. Of the smaller size, a similar one was billed at 15 florins. Weill says that he is going to select but very few, and that you can pick out as many as you want from the lot sent to him.

Dear Sirs:-

I have recently come into possession of a collection of some 4000 Medieval European coins, particularly rich in so far as concerns the Medieval coins of Germany. Inasmuch as my speciality is directed towards Russian coins - of which I have the finest collection outside of Russia - I am interested in disposing of my Medieval coins.

At the present time foreign buyers are negotiating with me for the sale of these coins but as an American I should prefer to see them transferred to American hands.

I would, therefore, be very pleased to hear from you as to whether you would be interested in the purchase of the collection.

Very sincerely,

Dear Mr. Wood:-

I am much obliged to you for sending me Mr. J. Rives Childs' letter which I return herewith as you request. Whether I should be interested or not is difficult for me to say. The buying of a whole collection does not appeal to me very much because it takes away the fun of collecting and I am particularly not interested in German coins. If there were a good series of French or Italian Mediaeval coins I might be interested, but I would, of course, have to know all the necessary details including the price asked, and I would have to figure on that quite carefully before I could make up my mind. I might find it possible to go in for certain parts of such a collection together with the Society or other interested purchasers.

Very truly yours,

I think the Museum would not attempt to negotiate for the collection of Mediaeval European^{coins} and I am sending Mr. Childs' letter to another collector.

I am enclosing a gold Dinar which I showed you some time ago. This you can have for Five Dollars. If I find out more about it, I will let you know.

THE AMERICAN NUMISMATIC SOCIETY
156TH STREET, WEST OF BROADWAY
NEW YORK

March 24th, 1923

Dear Mr. Garrett:

There has been offered to our Society a most unusual collection of twenty-one Indian Peace Medals. We have been able to secure an option for Two Thousand Dollars, expiring on April 1st.

This collection would go far toward completing the Society's series which already is the finest extant. The new collection contains several specimens heretofore quite unknown.

No branch of numismatics should possess a greater appeal to the American Numismatic Society than the medals owned, worn and treasured by the first Americans - the American Indian.

These medals are rapidly becoming more difficult to obtain, and the demand for them on the part of collectors and museums is increasing with even greater rapidity.

At the present moment the Society has no funds available in which to take advantage of such an unusual opportunity. Will you not send in a contribution?

Very truly yours,

President

Dear Mr. Newell:-

As you know, I have recently made quite a large investment in coins, so large indeed, that at least until I am able to dispose of those that are duplicates of pieces already in my collection, I do not feel able to make any further outlay on coins.

I appreciate the wonderful chance that is offered to the Society in connection with the twenty-one Indian Peace Medals and I wish I could help you out substantially in raising the \$2000.00 necessary, but the best I feel able to do is to send you my check for \$25.00.

With best wishes,

Sincerely yours,

Dear Mr. Garrett:

I am enclosing a copy of a catalogue of
Renaissance medals which I think may interest
you.

Mr. A. F. Davies writes us that he has
received instructions to dispose of this col-
lection. He states that an expert has recent-
ly examined the medals and discovered but 18
doubtful pieces. He also states that 85 per
cent are absolutely authentic. They are held
at Ten Thousand Dollars (\$10,000). The collec-
tion can be seen at 60 Avenue du Bois de Boulogne,
Paris, by appointment with Mr. H. Lowenfeld.

The address of Mr. A. F. Davies is: 134, Sin-

Dear Mr. Garrett:

Your letter just at hand, and I have this day forwarded to you Reinach's Histoire, parcel post, insured. There is no hurry about returning it.

I had hoped to see you before you left for the summer. I trust that you will be able to pay us a visit on your way back.

For some months I have been holding \$2.50 on my desk, hoping to give it you the next time you called here. It is for an overcharge on those copper Parthian coins and I am now enclosing cheque for same.

Dear Miss Brett:-

I have just received your letter of December 4th forwarded to me from New York. I shall be glad to let you publish the medallion and shall bring it on with me to New York when I come - possibly next week - so it can be photographed.

It would interest me very much to know more in detail about the pieces you mention which are in possession of Mlle. Warbel (if I read the name correctly). I wonder if they could be sent in care of the Society so that they could be examined and that I also might have an opportunity of looking at them. Of course, a good deal would depend upon how much she would insist on getting for them.
